CHERRY PECTORAL For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND

CONSUMPTION. This remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired.— So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried, its superiority over every other medicine of its kinds, is too apparent to escape observation, and where its virtues are known, the public no onger hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate.

Nothing has called louder for the earnest enquiry

of medical men than the alarming prevalence and

fatality of consumptive complaints, nor has any one

class of d seases had more of their investigation and

care. But as yet no adequate remedy had been pro-

vided, on which the public could depend for protec

ion from attacks upon the respiratory organs, until the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and I be ieve, successful endeavor to furnish the community with such a remedy. Of this last statement the American people are now prepared to judge, and, I appeal with confidence to their decision. If there is my dependence to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous effections of the throat and lungs yield to it, if we an depend on the assurance of intelligent Physicians, who make it their business to know,-in short, if there is any reliance upon anything, then s it irrefutably proven that this medicine does re lieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published or too wisely known. The afflicted should know it. A remedy that cures is priceless to them. Parents should know it, their children are priceless te them. All should know it for health can be oriced to no one. Not only should it be circulated ere, but everywhere, not only in this country, but n all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circle of the globe. The sun never sets on its limits. No continent is without it, and but few people. Although not in so general use in other nations as this, it is employed by the more intelligent in almost all civilized countries. It is extensively used in both Americas-in Europe, Asia, Africa, Australia, and the far off islands of the sea-Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even more avidity. Unlike most preparations of its kind, it is in expensive composition of costly material. Still t is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine now manufactured, is as good as ever has been male heretofore, or as we are capable of making—
le toil or cost is spared in maintaining it in the best
perfection which it is possible to produce. Hence he patient who procures the genuine CHERRY PECtoral, can rely on having as good an article as has ever been had by those who testify to its cures. By pursuing this course, I have the hope of doing some good in the world, as well as the satisfaction of believing that much has been done already.
